Message from the Property Manager

Dear Customer & Partners,

Finally we are in the year 2022, a very important milestone for the state of Qatar as well as all the Qatari Citizens & Residents.

As all entities involved in the FIFA 2022 World Cup, Hotel Park will take part in supporting this major event by providing great hospitality and a healthy environment that everyone can enjoy.

Being located at the Corniche Street, our intention will remain the same: To make Hotel Park one of the preferred outdoor destinations in the country; and "Your City Space" in one of the busiest districts of Doha.

For that, we are continuously developing our Food & Beverage offerings having more than 4 new Food & Beverage outlets in 2021. The year 2022 also started terrific with the "First McDonald's Mobile Unit in Qatar" opened at Hotel Park.

Discussions with others top F&B brands are ongoing, with the aim to have them operational on-site within the second quarter of 2022.

Aside from the Food & Beverage offering, Hotel Park is adding a new attraction to its playground area to provide more enjoyment for kids, as well as an upcoming mega trampoline, which will satisfy the kids and most probably the adults too.

Our existing partners on entertainments and activities will remain active while upcoming gaming arena will be launched for the older children with various functions around such as online tournaments, sponsors activations and other activities targeting the youthful generation.

Unique seating areas for private parties/gatherings will be implemented for families, specially on major occasions during 2022 until we reach the last quarter of this year where the venue will be busy with various activations in view of the World Cup.

This period will be definitely unmissable, and we are already excited to celebrate this festive period with Qatari Citizens & Residents as well as fans from all over the World.

Let the happenings begin!
